### Product Description

Description This card reader by Delock can be used for reading and writing CFexpress memory cards. The card reader is connected to a PC or a mobile device via the USB interface. Extensive connection options Thanks to the specially designed adapter, the Delock card reader can also be quickly and easily connected to the USB Type-A socket. This means it can be easily connected to new devices with a USB Type-C™ socket and older devices that only have a USB Type-A connection. The adapter is located directly on the cable and therefore cannot get lost. Small, stable and handy The Delock card reader is particularly suitable for mobile use due to its small dimensions and stable housing. It can be easily stowed in a bag together with a notebook or tablet and can be used immediately if required.
