from **55,00 EUR**

Item no.: 395180  
shipping weight: 0.10 kg  
Manufacturer: Delock

### Product Description

**Description** This cable by Delock can be used to connect two computers with each other. This makes it possible to exchange data in both directions at USB 5 Gbps speed. Furthermore, one mouse and one keyboard can be used on two computers (KM Switch). The corresponding computer is activated by simply moving the cursor from one display to the other. Mac and Windows compatible The cable with the integrated SmartLink software is suitable for Windows-based computers and notebooks, as well as for Apple devices with Mac OS operating systems. In addition, copying files between the two computers is quick and easy with the help of the Go!Bridge, which is also embedded. Extensive connection options Thanks to the specially designed adapter, the Delock cable can also be quickly and easily connected to the USB type A socket. This means it can be easily connected to new devices with a USB Type-C™ socket and older devices that only have a USB Type-A connection. The adapter is located directly at both ends of the cable and therefore cannot get lost. **Technical data** Connectors: - 2 x USB 5 Gbps USB Type-C™ plugs Adapter: - 1 x USB 5 Gbps USB Type-C™ socket - 1 x USB 5 Gbps Type-A plug Chipset: OT17300 - Keyboard and mouse can be used on two computers - Switch between computers by moving the cursor or key combination (adjustable) - Data exchange possible in both directions - Drivers are integrated in the cable - Cable with textile sheath - Gold-plated contacts - Colour: black - Length incl.
