Product Description

Product description Control lights, sockets, LED strips and other components in your home with the Tapo S200B Smart Button, which recognises a double click or a turn to the left or right in addition to a simple press. The button is powered by a 1x CR2032 battery with a lifespan of more than a year, so you can indulge in smart living without having to lay new cables in the house or change existing connections. The switch communicates with the control centre at a radio frequency of 868 MHz, which is necessary for the switch to function correctly. Package contents- Push-button- CR2032 battery- 3M double-sided cardboardWireless functions- Wireless frequency: 868 MHz, 922 MHzPhysical properties- Operating temperature [°C]: 0 to 40- Width [mm]: 44- Height [mm]: 44- Depth [mm]: 17
