

Item no.: 392231

SM321A-2 - TL- - Gigabit SFP module, WDM, SM, 2km, 1550/1310nm

from **14,01 EUR**

Item no.: 392231
shipping weight: 0.10 kg
Manufacturer: TP-LINK

Product Description

The TL-SM321A-2 from TP-LINK is designed according to the Small Form Pluggable Multi-Source Agreement (SFP-MSA). As a bidirectional optical WDM transceiver, TL-SM321A-2 uses an integrated bidirectional optical LC interface connector and the data link is up to 2 km in 9/125 μm SMF (single-mode fibre). TL-SM321A-2 also has the Digital Diagnostic Monitoring (DDM) function, which is compatible with SFF-8472. DDM supports real-time monitoring of the transceiver and displays parameters including transceiver current, transmitting/receiving optical power and operating temperature. TP-Link's TL-SM321A-2 is widely used for short and medium distance fibre optic networks, providing a fast and stable Gigabit fibre connection for switches, routers, servers, etc. Optics- Format: SFP- For cable type: Single Mode- Transmission speed: 1 Gbit/s- Wavelength - Tx/Rx [nm]: 1550/1310- Distance [km]: 2- Transmission type: WDM Connectors and interfaces- Optical connectors: (1) LC- Physical properties- Operating temperature [°C]: 0 to 70 General- Compatibility: Universal- Software- DDMI - Diagnostics: Yes
