LS109P - PoE switch

from **42,96 EUR**

Item no.: 392243
 shipping weight: 0.90 kg
 Manufacturer: TP-LINK

Product Description

TP-Link PoE Switch LS109P is an unmanaged PoE switch with 9x 10/100Mbps, 8 ports support PoE 802.3af/at with up to 30W/port. The total PoE budget of the switch is 63 W. With the extend mode, the PoE transmission range reaches up to 250m, ideal for the use of surveillance cameras in large areas. The extended mode reduces the connection speed at the PoE ports to 10 Mbps, which is more than sufficient for transmitting camera images. Another function is the automatic PoE recovery, which automatically restarts unresponsive devices that are supplied with power via PoE and port isolation. Key features-8x PoE-out 802.3af/at-Total PoE budget 63W-Extended mode for a distance of up to 250m-PoE auto-recovery automatically restarts unresponsive devices-Port isolation Scope of delivery-Switch-Power supply 53V/1.31A-Installation manual Technical parameters Connections and interfaces- LAN speed: (9) 10/100Mbps Power supply- Power type: DC connection- PoE type: PoE-Out (only)- PoE-Out standards: 802.3af, 802.3at- PoE outputs: 8- PoE budget [W]: 63- Long-range PoE - up to 250m: Yes- Maximum power consumption [W]: 3.7- Power supply via plug/terminal: 53V DC Physical properties- Design: Desktop- Fan: Without fan- Housing design: Metal- Operating temperature [°C]: 0 to 40- Width [mm]: 171- Height [mm]: 27- Depth [mm]: 98 General- Switching capacity [Gbps]: 1.8- MAC address table: 2000- Packet forwarding rate [Mpps]: 1.34
