

Item no.: A-OMNI-0121-V3

A-OMNI-0121-V3 - All-Band Mobile Omni Directional Antenna, 4m HDF-195 TNC-Male

from **83,19 EUR**

Item no.: A-OMNI-0121-V3
shipping weight: 0.10 kg
Manufacturer: Poynting

Product Description

This omnidirectional antenna with medium gain covers the GSM 900, GSM1800 / UMTS and LTE frequency bands. It is a lightweight antenna that is easy to install. It is a cost-effective omnidirectional solution as it is supplied with a 5 metre cable. The antenna is a favourite with installers due to its versatile base station characteristics. It is also ideal for machine-to-machine (M2M) applications that communicate via the GSM network (GPRS/ EDGE/ 3G/ HSPA/ LTE).**HIGHLIGHTS-** Wall and mast mounting possible- Agile base station- Lightweight- Covers most international GSM and LTE bands**APPLICATIONS-** Enables the provision of wireless services in rural and remote areas- M2M communication (ATMs, financial data processing,telemetry, etc.) - Extending wireless services in rural and remote areas - Extending wireless communication (ATMs, financial data processing, telemetry, etc.)- Extending wireless data transmission to areas with weak signal (can increase onnectivity range by a factor of 3 or more)- Poor reception of data signals (indoor or outdoor)- Slow data transmission connection- Unstable connection- Increasing the reliability of system transmission**PACKAGING CONTENTS-** A-OMNI-0121-V3- M6x60mm U-bolt ss 1- Econo bracket ss 1- M6 nuts ss 2- M6 washers ss 2- Dowels and screws for easy installation
