Product Description

TP-Link TL-SG3428MP is a fully manageable L2 switch from the JetStream family and is equipped with 24 Gigabit LAN ports with 802.3af/at PoE support, 4x SFP and two console ports (USB / RJ45). PoE Out works on all metallic ports and enables the power supply of devices with a consumption of up to 30W/port and the total PoE budget of the switch is 384W. Thanks to the rackmount design, the switch can be installed in a 19" rack. The switch also offers high performance, enterprise-class QoS network traffic management, useful security strategies and extensive Layer 2 management functions. The management supports IPv6, VLAN, QoS, DHCP snooping and many other functions.
