## WD102KRYZ - 10 TB HDD, 3.5 Zoll, SATA

from **310,47 EUR**

Item no.: 375447  
 shipping weight: 0.10 kg  
 Manufacturer: Western Digital

### Product Description

Product Description WD Gold hard drives have up to ten times the load capacity of desktop hard drives and utilise advanced technology to deliver industry-leading reliability, capacity, power consumption and performance. Designed for a wide range of data centre applications, WD Gold drives are perfect for high availability servers and storage arrays that require the most robust storage devices with premium 24/7 customer support. A full range of nearline capacities WD Gold drives provide the capacities required in the most demanding data centre environments, from entry-level servers to high-end enterprise storage systems. High workload WD Gold hard drives are rated for workloads of up to 550TB per year (one of the highest workload capacities of any 3.5" hard drive) and offer both performance and reliability in any data centre environment. High reliability With an MTBF of up to 2.5 million hours, WD Gold hard drives offer the highest level of durability and reliability for continuous operation in the most demanding storage environments. Outstanding support Every WD Gold hard drive comes with dedicated 24/7 telephone support. Technical parameters- Disc design: Internal- Hard drive size: 3.5 inch- SATA speed: SATA III/600- Capacity: 10 TB- Speed: 7,200 rpm- Buffer for hard drive: 256 MB
