from **56,85 EUR**

Item no.: 388275
 shipping weight: 0.80 kg
 Manufacturer: Yeelight

Product Description

Unleash your creativity with the Yeelight Cube - the modular desktop RGB solution that allows you to combine 3 different lighting modules into endless combinations without any plugs or brackets. Customise your dot-matrix lights into digital clocks, emojis or billboards while enjoying music, games and screen-synced ambient lighting. Yeelight Cube offers a customisable and novel lighting experience. With 3 different lighting modules and a magnetic design, Yeelight Cube offers endless possibilities for custom lighting combinations without the need for additional connectors or mounts, giving you limitless play possibilities and creativity.

Cube-Matrix Create any pattern you want with 25 addressable LED beads that you can customise via the Yeelight APP. Design your own dynamic pixel art and turn it into whatever you want with just one touch - a digital clock, an emoji, a billboard. Let your imagination run wild and create a unique piece of art that reflects your individual style and personality, with endless possibilities for customisation and personalisation.

Cube panel Soft light blending and illuminated panels. The cube panels allow for seamless blending of colours and lighting, creating a more intense and visually stunning lighting experience. These panels can be used to create a soft and moody atmosphere in any room, perfect for relaxing after a long day or setting the mood for a romantic evening.

Cube-Spot 350° horizontally and 20° vertically adjustable angles allow for customised wall lighting. With the Cube-Spot, you can highlight your favourite artwork, family photos or decorative objects on your walls with adjustable angles that perfectly suit your preferences. Highlight a gallery wall or illuminate a beautiful painting in your living room to create a striking focal point. The possibilities are endless, and the Cube spot makes it easy to bring your artistic vision to life.

PC screen synchronisation With the Yeelight Cube, you can create an immersive entertainment experience that goes beyond the boundaries of your screen. By configuring the Cube via the Yeelight Station on your PC, you can easily select different display areas to sync with the light without the need for additional cameras or devices.

Music Sync The Yeelight Cube's music sync function allows it to dance along to the rhythm of your favourite music. Unlike other providers, you do not need any additional equipment such as an HDMI Sync Box. Simply connect the Cube to your PC via Yeelight Station and press play to hear the music wrapped in the stunning flow of light.

Game Sync The Yeelight Cube supports third-party connectivity such as Razer Chroma and Overwolf, enabling reactive lighting effects while gaming. You don't need an additional HDMI sync box, simply connect your Cube to your PC via the Yeelight Station. Experience a new level of gaming immersion with reactive lighting effects that come to life when you open fire or step on the accelerator.

Dynamic lighting effects With built-in dynamic lighting effects in a variety of themes such as Matrix, Campfire, Wave, Rainbow and Aurora, the Yeelight Cube is the perfect lighting solution for any occasion. Whether you're hosting a party, having a film night, streaming or simply listening to music, the Cube's expressive and impressive effects will elevate the atmosphere and create a truly immersive experience. With just a touch of the mode ball in the app or the button on the Cube base, you can easily switch between different lighting modes to suit your mood and activity.

Matter-compatible The Yeelight Cube is among the first smart devices in the world with official Matter certification, making it compatible with home assistants such as Apple HomeKit, Google Assistant, Amazon Alexa, Samsung SmartThings, Home Assistant and others. As Yeelight's first product to launch with native compatibility with Matter, the Cube seamlessly connects with a variety of home assistants, providing smart, unlimited and frictionless connections for a more convenient and efficient lifestyle.

Features:- YEELIGHT Cube Matrix + Base Station- Power supply: 12V DC, 0.21A, 2.5W (one Cube)- Wireless connection: WiFi IEEE802.11b/g/n 2.4Ghz, Bluetooth 5.0 BLE, Matter- Expandable by 5 additional cubes
