Product Description

Product information "Yale Linus Smart Door Lock (Silver)" Make it smart. Linus® Smart Lock. This lock makes your door even smarter. We have developed it to make your life safer and easier. Elegant design combined with the latest technology. The Linus® Smart Lock is a secure door lock that allows you to lock and unlock your door wherever you are. It gives you keyless entry, lets you see who's coming and when, assigns virtual guest keys and lets you check whether the door is open or closed. The latest Yale Smart Lock has 180 years of security experience built in. You can rely on it. Highlights:- Remote access functionality (Yale Connect Wi-Fi Bridge required)- Guest management- Activity log and notifications- DoorSense™ technology - reports whether the door is actually closed and not accidentally left open- Available in two colours to match your door: silver and anthracite Specifications:- Compatibility requirements: Fits a wide range of doors. Is your lock compatible? Check our website for recommendations on the cylinder options available in your country.- Requirements: Free Yale Access app for iOS or Android smartphone.- Communication frequency between Linus® and accessories: Bluetooth version: 4.2 - 2.4 GHz.- Technology between Linus® and smartphone: Bluetooth directly or via Bluetooth and WLAN when paired with a Yale Connect Wi-Fi Bridge.- Two-factor authentication: Your Yale Access account is protected by two-factor authentication. This means that in addition to the password, the system verifies the identity using an email address or telephone number.- Two-level encryption: Linus® uses Bluetooth Low Energy (BLE) encryption technology as well as AES 128-bit and TLS encryption, which banks also use to protect their customer data.- Product dimensions: 58 mm wide, 58 mm deep and 150 mm long.- Product weight: 623 g including batteries.- Battery types: 4 x AA (alkaline recommended) for the Smart Lock. Batteries are included.
