Product Description

Product information "Yale Linus L2 Smart Lock (Black)" Say goodbye to the hassle of searching for the key at the front door. The Yale Linus® Smart Lock L2 offers security and convenience. It locks automatically as soon as you close your door and unlocks as soon as you approach your home. The intelligent door lock can also be programmed to reliably unlock or lock the door at certain times of the day. Grant the required authorisations for people to enter your home at defined times using the free Yale Home app on your smartphone. Thanks to the detailed activity log and optional notifications, you are always informed and know who has opened your door and at what time. Expand your Smart Lock with the Yale Smart Keypad so that you, your family, the cleaner or other people can open the front door flexibly and without a key using the PIN code on the keypad. Or use the practical Yale NFC Dots to use your smartphone as a virtual key. IMPROVED NEW LINUS® DESIGN The Linus® L2 is easier to use, smaller, stronger, quieter and twice as fast as the first generation Linus®. The rechargeable battery enables fast charging for powerful and reliable keyless access. KEY-FREE COMFORT No more frantic searching for the key. Instead, enjoy easy and convenient access with the Linus® Smart Lock L2. Open your door automatically when you get home and lock it at a specific time on a schedule or immediately when you leave. CUSTOMISED SECURITY Programme your smart door lock to lock at specific times of the day, such as bedtime, and set it to open exactly when you leave the house for work. TAP TO (UN)LOCK Use your smartphone as a digital key. Simply hold your smartphone on the supplied Yale Dot® for easy and secure access to your home without having to open the app. Place the Yale Dot anywhere inside or outside. You can even pair up to 5 Dots with a Yale Linus L2. ACTIVITY LOG & NOTIFICATIONS Always know when your door has been opened for added security and to check when specific people have entered your home. ADMIT VISITORSEasily and reliably manage access for family, friends and other people you trust by providing digital keys or access codes via the intuitive and free Yale Home app. EASY INSTALLATION Easy and quick to install on the inside of almost all doors and with the existing cylinder. Whether in a rented flat or your own home, install the door lock without leaving a trace. From the outside, everything remains unchanged and you can of course continue to lock and unlock your door with the old conventional key. WLAN DOOR LOCK The Linus® L2 offers you a wide range of connectivity options, including integrated WLAN and Bluetooth. No additional devices are required to control your door remotely or connect to other smart home devices and voice assistants. ELEGANCE THAT FITS EVERY DOOR Enhanced, stylish and slim design that fits perfectly with any interior. Available in two colours. UNINTERRUPTED SECURITY The Linus L2 Smart Lock has a powerful, long-lasting, rechargeable battery that can be easily replaced and removed for recharging via USB-C in a short time. Depending on usage, the battery provides reliable keyless access for up to 6 months with just one charge. The app keeps you regularly informed about the battery status. CONNECTIVITY Create your own personalised smart home. The Linus L2 Smart Lock can be flexibly integrated into Yale's intelligent ecosystem. Simply pair the door lock with Yale's cameras or video doorbell and automatically deactivate your Yale Smart Alarm System as soon as you open the door. You can also take advantage of the many practical smart home integrations from our partners, such as operation with the leading voice assistants Alexa and Google Home.
