Product Description

TP-Link EAP110-outdoor - 300 Mbit/s Wi-Fi Outdoor Access Point

With a high transmission power and two high-gain omnidirectional antennas, the EAP110-Outdoor provides stable wireless coverage at a range of up to 200 meters in outdoor settings. [Supports Passive PoE for Easy Outdoor Set up](#)

Do away with DC power adapters and power cords with passive Power over Ethernet (PoE), making outdoor deployment simple and fast. [Flexible Installation Options](#)

Secure access points to walls or poles with the mounting kits provided. Efficient Network Administration in Centrally Managed and Standalone Modes [Centralized Management](#)

Manage hundreds of access points at once with the multi-function Auranet Controller software, ideal for small and medium-sized business networks. [Standalone Mode](#)

In smaller-scale networks, manage standalone access points with ease via our intuitive web interface. [Weatherproof Enclosure with IP65 Certification](#)

Rated as IP65 during Ingress Protection testing, a resilient weatherproof enclosure protects the access points against harsh outdoor condition. [Key features](#)
