H-KAL - Calibration of the measuring device

from **451,13 EUR**

Item no.: 389786
shipping weight: 0.00 kg
Manufacturer: Televes

Product Description

The service includes calibration and verification of the MOSAIQ6 or H30 series measuring devices*. The measuring device is adjusted by qualified specialists at the Televes factory itself according to the customer's measurement specifications. This ensures that the measuring device performs reliable and precise power measurements. The device is returned with a certificate of proper calibration.*It is strongly recommended to perform the calibration every year to ensure the proper functioning of the spectrum analyser. Highlights- This service allows the spectrum analyser to meet the recommended calibration period.- Original calibration certificate included- Guaranteed certification for 1 year
