ALREZWE_W_SHUTTR - Qubino Wave Shutter

from **35,56 EUR**

Item no.: 388086
shipping weight: 0.10 kg
Manufacturer: Shelly

Product Description

The Shelly Qubino Wave Shutter shutter switch allows you to remotely automate and control the position of roller shutters, blinds, windows, awnings, pool covers and other devices powered by bi-directional AC motors. Using Z-Wave, smart home products can communicate seamlessly with each other thanks to a centralised smart hub, regardless of their brand or interface! Shelly Qubino devices work with the latest Z-Wave chip generation (S800), one of the world's most popular standardised technologies for smart homes. Shelly Qubino Wave Shutter roller shutter switch is retrofittable and designed to fit behind any switch or socket, instantly turning it into a smart socket. Once installed, you can integrate it into your Z-Wave network (Z-Wave gateway required) and control the connected devices from anywhere via your smartphone or tablet. Shelly Qubino devices work with over 4000 Z-Wave certified devices and gateways. Features:- Control of the tilt position (angle) of the blind slats- Supports push buttons/touch switches and toggle switches- Power measurement- Extremely low power consumption: < 0.3 W- Z-Wave frequency band: 868.4 MHz (CEPT countries)- Latest technology: Z-Wave 800 series- Automatic setup with SmartStart- Security 2 Authenticated for maximum security- Over-the-air firmware updates- Ambient temperature: -20°C to 40°C - Humidity: 30% to 70% RH- Max. Altitude: 2000 m / 6562 ft.- Power supply: 110-240 V AC \pm 10%- Power consumption of the device: < 0.3 W- Item dimensions (WxHxL): 42 x 37 x 16 mm - Packaging dimensions (WxHxL): 65 x 65 x 25 mm - Item weight (net): 0.029 Kg - Item weight (gross): 0.052 Kg - IP class: IP20
