ALREZWE_W_PROSHU - Qubino Wave Z-Wave Pro Shutter

from **100,12 EUR**

Item no.: 396410
 shipping weight: 0.10 kg
 Manufacturer: Shelly

Product Description

The best solution for new residential and commercial buildings. The Wave Pro Shutter is a relay that supports up to 16 A per channel. It is equipped with an integrated electricity meter that allows you to control and monitor the consumption of each channel. Various actions, scenarios and schedules can be set to harmonise your environment with your daily activities or business needs. By using Z-Wave, smart home products can communicate seamlessly with each other thanks to a central smart hub - regardless of their brand or platform! Shelly Qubino devices work with the latest Z-Wave chip generation (S800), one of the world's most popular standardised technologies for smart homes. The Wave Pro series is designed for installation on the DIN rail in the fuse box. Once installed, you can integrate them into your Z-Wave network (a Z-Wave gateway is required) and control the connected devices from anywhere with your smartphone or tablet. Shelly Qubino devices work with over 4000 Z-Wave certified devices and gateways.

Features- Power supply: 110-240 V AC, 50/60 Hz- Self-consumption of the device: < 0.3 W- Power measurement (W): Yes- Max. Switching current AC: 16 A per channel- Overheating protection: Yes- Overload protection: Yes- Overvoltage protection: Yes- Distance: Up to 40 m indoors (depending on local conditions)- Z-Wave repeater: Yes- CPU: Z-Wave S800- Z-Wave frequency bands: 868.4 MHz- Maximum transmitted radio frequency power in frequency band(s): < 25 mW- Mounting: DIN rail- Ambient temperature: -20 °C to 40 °C- Humidity: 30 % to 70 % relative humidity- Max. Altitude: 2000 m

Further data: Item dimensions (WxHxL): 19 x 94 x 69 mm Packaging dimensions (WxHxL): 97 x 75 x 25 mm Item weight (net): 0.077 Kg Item weight (gross): 0.099 Kg

Z-Wave S2: Yes

WEEE: Yes

CE: Yes

IP class: IP20

Z-Wave Plus™ V2: Introducing Z-Wave Plus™ V2. Z-Wave Plus™ V2 is a new level within Z-Wave certification and is designed to help consumers identify those products that utilise the "GEN7" Z-Wave hardware platform (also known as the 700 series or 7th generation Z-Wave chips). Z-Wave Plus™ V2 certified products have several advantages that increase ease of use and make Z-Wave solutions even faster and easier to install and set up. Since the first Z-Wave product was certified in 2004, Z-Wave has become the market leader for interoperable smart devices in home networking. With the introduction of the new Z-Wave 700 series, the Z-Wave ecosystem has been expanded with new features - such as increased range, longer battery life, Over The Air upgrades (OTA), and additional RF channels. Products with Z-Wave Plus™ V2 are fully backwards compatible with existing Z-Wave products!

For consumers, homeowners, integrators and service providers, Z-Wave Plus™ V2 offers improvements and tremendous benefits in terms of shorter and easier installations, more extensive device profiles, improved self-healing and longer battery life.

Benefits- Improved battery life up to 10 years- Improved range up to 90 metres- 250% more bandwidth- Three RF channels for improved noise immunity and higher bandwidth- New network-wide plug-and-play inclusion feature- Improved communication through self-healing and fault tolerance with explorer frame function- Encrypted procedure for over-the-air updates- Improved product information collection for the product certification database

Z-Wave S2: The foundation of S2 is everything, everything needed for a smart home: The latest version of Z-Wave, reduction in power consumption compared to older Z-Wave devices and wireless communication. S2 takes all this and expands the Z-Wave world with:- Advanced encryption (AES 128-bit)- More security against hacker attacks- Improved battery life- Faster communication between devices
