### Product Description

Shelly Plus H&T Gen. 3 Product information "Shelly Plus H&T Gen. 3" This sensor precisely measures the temperature and humidity, which are important for a healthy indoor climate. Connect the device with other Shelly devices for seamless climate automation and ensure optimum comfort and well-being in your living area. No hub required! Easy control via the Shelly Smart Control app, as well as via various protocols, platforms and voice assistants. Equipped with the new Shelly chip: 8 MB memory and faster responsiveness. Matter upgrade without compromising on functionalities. Enhanced with a low-power e-paper display and an integrated clock. Batteries 4 x 1.5 V AA (LR) batteries (not included). Works with USB Type-C slot. Low battery consumption (up to 1 year battery life). Wall mountable. Features an integrated web server and connects to your Wi-Fi network. Revolutionary performance. Discover the power of expanded memory with Shelly H&T Gen3. Equipped with our Shelly chip with 8 MB memory, it doubles efficiency and responsiveness. The leap in memory capacity prepares Gen3 devices for upcoming features and ensures smoother operation and faster responses, allowing your environment to be monitored with unparalleled precision and ease. Now in a range of matte colours. Experience the perfect blend of functionality and fashion with Shelly H&T Gen3, now available in three new colours. Whether you prefer a subtle touch or a bold statement, the Shelly H&T Gen3 adapts to your style and ensures that the comfort and design of your home are in perfect harmony. It's not just about functionality, it's about complementing your living space with a device that feels like it was created just for you. Dual-powered 4 x standard 1.5 V AA (LR) batteries. When using batteries, the Shelly H&T Gen3 has a battery life of over a year thanks to its energy-saving display. USB power supply. Shelly H&T Gen3 is equipped with a type-C USB slot. While this cannot be used to charge the device's batteries, it allows for continuous power supply, faster connection and more frequent reports. Wi-Fi powered. Connect Shelly H&T Gen3 to your Wi-Fi network. No HUB required! Bluetooth connection. Quickly connect via Bluetooth or use as a Bluetooth gateway. Measure humidity. Monitor changes in humidity to prevent dryness and mould growth. Measure temperature. Watch for temperature fluctuations and maintain comfortable climate conditions. Free data storage. Up to 1 year of free data storage for analyses and statistics. Long battery life. Over 1 year of battery life and a USB Type-C slot for continuous power supply. Endless application possibilities. The ultimate environmental monitor. Ensure the perfect sleeping environment for your baby by monitoring the temperature and humidity in the nursery. Set notifications to create ideal conditions for a safe and comfortable sleep. Heating made easy. Shelly H&T's smart heating control. Easily turn your old heater into a smart heater. Simply plug your heater into a Shelly Plug and connect it to the Shelly H&T Gen3. This allows you to create a scene that activates the heater just before the temperature gets too low. This intelligent automation ensures that your home is always comfortably warm and efficient. USE CASES. Intelligent humidity control. Ensure a healthy environment in your bathroom with the Shelly H&T Gen3. By integrating the sensor with the Shelly Plus 1, which is wired to your bathroom fan, you can easily automate humidity control. Set a scene in which the Shelly Plus 1 activates the fan or ventilation when high humidity is detected, thereby reducing the humidity. This makes your everyday life even more comfortable and automatically keeps your bathroom pleasant and dry. Full compatibility. Shelly devices are compatible with Alexa, Google Home, Android and iOS. Together with the voice assistant, you can control Shelly devices with your voice! Shelly Smart Control. An app to control your rooms, your energy consumption and your expenses. Customise your dashboards, get detailed consumption reports and keep track of your energy bills. Features- Dimensions (HXBXT): without stand: 70x70x26 mm / 2.76x2.76x1.02 in; with stand: 70x70x45 mm / 2.76x2.76x1.77 in- Ambient temperature: 0 °C to 40 °C / 32 °F to 104 °F- Humidity: 30 % to 70 % RH- Batteries: 4 AA (LR6) 1.5 V (batteries not included)- USB power supply: Type-C (cable not included)- Estimated battery life: Up to 12 months- Power consumption: Sleep mode: ~0.2 mA- Setup mode: ~76 mA- Frequency band: 2400 - 2495 MHz- Max. Transmission power in frequency band: <20 dBm- WLAN protocol: 802.11 b/g/n- WLAN RANGE (DEPENDING ON LOCAL CONDITIONS): up to 50 m / 160 ft outdoors; up to 30 m / 100 ft indoors- Bluetooth protocol: 4.2- BLUETOOTH RANGE (DEPENDING ON LOCAL RANGE): up to 30 m / 100 ft outdoors; up to 10 m / 33 ft indoors- CPU: ESP-Shelly-C38F- Flash: 8MB- Webhooks (URL actions): 10 with 2 URLs per hook- MQTT: Yes- REST-API: Yes
