Product Description

Aqara Door and Window Sensor T1 Product information "Aqara Door and Window Sensor T1" An intelligent sensor with maximum versatility The Aqara Door and Window Sensor T1 detects the open and closed status of doors or windows based on the distance between the sensor unit and the magnet. It consumes a minimal amount of energy. No tools are required. Simply stick it where you want it and use it in a dozen possible applications. Advanced technology The Aqara door and window sensor T1 detects the current status of doors or windows via the distance between the sensor and the magnet. The sensor is also energy efficient and a battery can last over 2 years with normal use. Security notifications With the T1 door and window sensor, you can activate the alarm mode when you leave the house or are asleep. When a door or window is opened, the hub will sound an alarm and send a notification to your phone. Multi-ecosystem support After connecting to an Aqara hub, the sensor can be connected to third-party platforms such as Apple Home, Amazon Alexa, Google Home and even Matter. It can also be natively integrated with Samsung SmartThings and Yandex Smart Home. Features - Wireless technology: Zigbee - Maximum detection distance: 22 mm - Operating temperature: -10? - +45°C - Operating humidity: 0 - 95%RH, non-condensing - Scope of delivery: sensor unit, magnet, 2x stickers, quick start guide - Homekit: Aqara Hub required
