Product Description

Product description GentleBOX JR-300 is a new JIROUS solution designed for use with JRC-24Duplex, JRC-24Duplex(SMA), JRC-29Duplex and JRC-29Duplex(SMA) duplex satellite dishes and allows external installation of active elements directly in an outdoor box Fixed parabolic reflector attached to the body. Complete and ideal outdoor box for AP, RouterBOARD and other electronics. Forget measuring and drilling! Everything is ready, including the mounting holes. Forget searching for cable glands and mounting material! Everything is included. All you need is 1 slotted and 2 Phillips screwdrivers (PH1 and PH2). GentleBOX eliminates the need to twist the cable grommets when tightening and loosening the cables - the moulded parts secure the grommets against twisting. The GentleBOX has grooves and holes for easy installation of the RouterBOARD or other electronic devices, including screws and plastic posts. Simplified installation of RB411, RB433, RB600, RB800, ALIX2, ALIX3, Compex and Wispstation. With GentleBOX you no longer need to insulate the connections against water, everything is dry!
