Product Description

Product description: A piece of the side collar is scratched on the inside, see first photo. The radome cover for the AF60-LR from Ubiquiti consists of a front radome and a side collar. Thanks to the cover, the wireless connection can withstand harsh weather conditions - especially icing and snow. Thanks to the radome's waste heat, snow and icing do not stick to the front. The cover measures 420 x Xmm, weighs 0.6kg and is made of UV-resistant plastic and painted aluminium (collar). Package contains- (2) radome- (2) side collars- (2) set of fixing materials
