from **173,90 EUR**

Item no.: 388260
shipping weight: 0.60 kg
Manufacturer: Yale

Product Description

Product information "Yale Smart Video Doorbell" With the Yale Smart Video Doorbell, you can see, hear and speak to visitors from anywhere and at any time. The intelligent video doorbell for home surveillance is easy to use and simple to install. Thanks to Wi-Fi and a powerful integrated battery, the smart video doorbell can be installed flexibly at almost any possible location at your front door with little effort. For a permanent power supply, you can of course also connect the video doorbell to the existing doorbell wire. The camera offers a razor-sharp FullHD image, live view and night vision for clear recordings that can be viewed in the Yale Home app. You'll get a "call" to your smartphone when the doorbell is pressed and detailed notifications when the inbuilt motion sensors are triggered, so you'll never miss a delivery or guest again. The Smart Video Doorbell also offers additional monitoring features such as AI to detect people, vehicles*, animals* or parcels* as well as definable zone detection & masking. *Some AI features, such as parcel, pet or vehicle detection and additional cloud recording, are available as part of an optional subscription. APP CONTROL Stay connected to your home wherever you are. Control and monitor your front door with the Yale Home app, from anywhere in the world. Requires 2.4 GHz Wi-Fi. LIVEVIEW & TWO-WAY AUDIO With the Yale Home app, you can access live video from your security camera at any time and communicate with visitors in real time thanks to the two-way audio function. REAL-TIME NOTIFICATIONS Receive a "call" to your phone when someone rings the doorbell and push notifications when motion is detected near your front door. Never miss a parcel delivery or an unexpected visitor again. NIGHT VISION Don't let the dark jeopardise your safety. The Yale Smart Video Doorbell has an advanced night vision function that provides clear and detailed recordings even in low light conditions. EASY INSTALLATION The Video Doorbell for home surveillance is easy to set up and can be operated both wirelessly with the integrated battery and with a permanent wired power supply. CUSTOMISABLE ZONES Set up specific areas for motion detection. This means you only receive the really important notifications by excluding irrelevant areas from motion detection. You can also define privacy zones so that recordings are masked with a black bar and are therefore not monitored. PERSON, VEHICLE & PARCEL DETECTION Minimise unnecessary notifications with person detection, receive notifications about nearby vehicles* and never miss a delivery again with parcel detection*. (*A subscription is required for vehicle and parcel detection.) RECORDING ON MOVEMENT Record videos or images that you can view and save at any time when motion is detected at home. Recordings can be stored either locally on the camera's internal flash memory or in the Yale Cloud*. (*Subscription required.) WEATHER RESISTANT With an IP65 rating, the Yale Smart Video Doorbell is built to withstand outdoor conditions and work reliably even in challenging weather conditions. COMPATIBILITY Works seamlessly with other smart products from Yale and partners such as leading voice assistants Amazon Alexa and Google Home.
