

Item no.: 392183

SM311LS - 1G SFP optical module, SM, 1310nm, 2x LC connector, 20km

from **17,78 EUR**

Item no.: 392183
shipping weight: 0.10 kg
Manufacturer: TP-LINK

Product Description

The TL-SM311 series fibre module cards are introduced to extend the transmission distance. Connected to our managed/smart switches, they can extend the distance up to 20 kilometres, which can basically meet the distance requirements of LANs. Users can choose whether and which elements to use the fibre optic modules according to their needs to reduce costs.

Technical parameters

Optics- Format: SFP- For cable type: single mode- Transmission speed: 1 Gbps- Wavelength - Tx/Rx [nm]: 1310- Distance [km]: 20- Transmission type: 2-fibre

Connectors and interfaces- Optical connectors: (2) LC

Physical properties- Operating temperature [°C]: 0 to 70

General- Compatibility: Universal

Software- DDMI - Diagnostics: Yes
