Product Description

The Yealink WH62 is an entry-level wireless DECT headset. It works seamlessly with the major UC platforms and integrates natively with Yealink IP phones. Yealink's full-band audio and Acoustic Shield technology ensure that you can speak and hear clearly when making calls and enjoy the crystal-clear music experience. With easy on-ear control, interruption-free and comfortable to wear, the WH62 is the ideal companion for communicating or collaborating. The portable version of the WH62 allows independent use and easy carrying without the traditional DECT base, flexible and convenient enough for hybrid working or use on the go. Highlights- Single-sided wireless DECT headset- Acoustic Shield technology- Optima Audio Experience- All-day wearing comfort- Plug and Play- Connection via USB dongle- Certified for Microsoft Teams Scope of delivery Yealink Headset WH62 Mono Portable Teams, WDD60 dongle, USB charging cable, carrying case, quick start guide
