### Product Description

The Yealink W77P is a powerful and robust wireless SIP phone system that can register up to 10 Yealink DECT W57R handsets and is ideal for hectic environments. It supports a plus of features, connectivity and mobility. It supports up to 10 SIP accounts and 20 parallel calls and provides better signal strength and responsiveness, so you can enjoy a stable and good experience in your mobile communication. In addition, the W57R is protected against drops from a height of up to 3.5 metres, against splashing water from all directions and against the ingress of dust. Thanks to the vibration alarm, you are guaranteed not to miss any more calls, even if it is a little louder around you.
