Product Description

Product information "Aqara Cube T1 Pro Zigbee" The Aqara Cube T1 Pro can now be used as a HomeKit controller thanks to the new scene mode. In addition, it also supports IFTTT and other ecosystems. Side and action control for scene mode With cube-like displays, you can use 6 sides to control different scenes or devices. Rotate, shake, hold or trigger after one minute of inactivity to create more possibilities. Action mode from the Classic Cube Alternatively, you can switch the T1 Pro to Action Mode. Press, shake, rotate, double tap, rotate 180°, rotate 90° and trigger after one minute to have more fun and get other benefits at the same time. Future-proof via OTA The Cube now supports OTA updates, which means that new features and fixes can be added after the product is released. Up to 2 years of battery life The extremely low energy consumption makes it more environmentally friendly and lets you forget about recharging batteries for years. Turn to control You can adjust the brightness or temperature of other Aqara lights (compatible Aqara lights are required) or the percentage of curtain opening by turning the cube: Everything is configurable in the Aqara Home app. Features - Wireless protocol: Zigbee 3.0 - Battery type: CR2450 - Battery life: up to 2 years - Operating temperature: -10°C - 50°C - Humidity 0- 95% RH, non-condensing Further data - WEEE: yes - CE: yes - IP class: IP20
