from **27,68 EUR**

Item no.: 388043
shipping weight: 0.10 kg
Manufacturer: Senic

Product Description

Make music tangible! MoodBlocks combine the haptic experience of vinyl records with state-of-the-art technology. MoodBlocks are officially certified as "Works with Sonos" and work with any Sonos speaker. With the MoodBlocks app, you can choose and change which speakers your music is played on. Choose your favourite music from Spotify (Premium) or Apple Music and save it directly to a MoodBlock. 1. Choose your block! Use our "Creative MoodBlocks" and add favourite music from Spotify or Apple Music or choose one of our specially compiled blocks. 2. Tap it with iPhone or MoodPlay. Simply tap a MoodBlock and the music will play on your Sonos speakers. You'll need an iPhone XS or newer to use this feature, or an NFC-enabled Android device, or simply place a MoodBlock on MoodPlay and use its rotary and touch controls to conveniently control Sonos. Perfect for the whole family and without your phone! 3. Enjoy your music. That's it. Turn technology into a simple haptic experience and put the focus back on the music and your daily routine. Features: - Works with Sonos - Works with Spotify Premium and Apple Music - Required MoodBlocks app - Usable with iPhone or MoodPlay
