## NPLLSW01-10A - Netplus Smart Relay Switch Module 10A 1-channel Wi-Fi

from **12,16 EUR**

Item no.: 388008  
shipping weight: 0.10 kg  
Manufacturer: Shelly

### Product Description

**Product information "Netplus Smart Relay Switch Module 10A 1-channel WLAN"**The Netplus Smart Relay Switch Module 10A 1-channel WLAN is a perfect solution for transferring your electrical household appliances to IoT (Internet of Thing) devices. It can be installed behind existing conventional switches, in a distribution box or in a ceiling fitting. You can then use your smartphone to switch lights on and off, switch on electrical appliances or switch off the power from anywhere. Flexible installation The Netplus smart home switch module was originally designed to be compatible with existing normal switches, retaining its technical function and requiring only minimal changes to your current electrical system or household appliances. Thanks to its miniature size, this smart switch relay fits into most flush-mounted boxes and light switch boxes without the need for remodelling or rewiring. In addition, a mounting clip is available for the Tuya Smart Switch, allowing it to be installed on the DIN rail of a junction box. Wi-Fi connection Use your existing Wi-Fi network to achieve wireless control. High compatibility This smart switch module is compatible with existing normal switches. Schedule Create customised schedules based on your agenda or follow the sunrise or sunset. Mobile app remote control Switch a variety of devices on and off directly via the mobile app, no matter where you are. Forgot to switch off the lights, air conditioning or other devices at home because you were in a hurry? Now you can switch them off on the way to the office or airport. Just take out your mobile phone and lightly tap the screen. Hands-free voice control Netplus smart devices work with Amazon Alexa/Echo/Dot, Google Home, Yandex, etc. After pairing with these devices, you can control your home appliances with simple voice commands without touching a switch or opening the app, just ask Alexa to execute the commands. Device sharing Add your family members in the sharing list, then they can control the same devices. 2-way control for stair light Netplus smart relay or dimmer modules have more functions that will surprise you. Connect them to a pair of 2-way switches to switch the staircase light on and off. Smart scenarios Create smart scenarios by linking smart relays to other Netplus smart devices. Set this smart module to activate customised scenes based on temperature, humidity, light or various events. Use the Netplus Gate Smart Module to open your swing gate when you drive home and then switch on the lights and air conditioning when you park the car. Features:- Input: AC100-240V 50/60Hz- Output: AC100-240V 50/60Hz- Load: max. 10A- Channels: 1 channel- Power measurement: No- Management app: SmartLife or Tuya Smart App- Operating range: < 200 metres- Standby power: < 0.5W- Overload protection: Yes- Neutral conductor required: Yes- Connectivity protocol: Wi-Fi 2.4GHz and Bluetooth- Wireless standard: IEEE 802.11 b/g/n- Antenna: Ceramic antenna integrated on the PCB board- Security module: WPA / WPA2- Encryption type: WEP / TKIP / AES- Operating temperature: -10°C - +40°C- Housing temperature: Tc: +80°C (Max.)- Operating humidity: 5% - 95% RH, non-condensing- IP rating: IP20 for indoor use- Product dimensions (WxHxL): 43 x 37 x 23 mm - Packaging dimensions (WxHxL): 55 x 45 x 30 mm - Product weight (net): 0.033 Kg - Product weight (gross): 0.040 Kg
