## AQAZCM-M01\_TRACK - Curtain Driver E1 (Track Version)

from **110,72 EUR**

Item no.: 396442  
shipping weight: 0.50 kg  
Manufacturer: Aqara

### Product Description

Product information "Aqara Curtain Driver E1 Track Version (Zigbee) Curtain control, version for track" The Curtain Driver is supplied in two versions, this track version supports U-rails and I-rail. For all other curtain rails you need the Rod version (extendable rods are not supported). Up to 1 year battery life between each charge You can choose from the huge rechargeable 6400 mAh battery, which can be used for up to a year or even continuously powered via the USB-C port. Actual battery life may vary depending on curtain weight, track length and friction. Built-in light sensor The built-in light sensor enables brightness control of the Curtain Driver: save energy on cooling and provide more comfort for your eyes. Zigbee 3.0 protocol Zigbee, the most stable and reliable smart home technology, is used for store support automations and cloud integrations. Easy installation and setup Simply mount the Curtain Driver E1 to the existing rail and complete the installation in the Aqara Home app. Wide ecosystem support Compatible with a wide range of ecosystems and voice assistants. HomeKit, Alexa, Google Assistant, IFTTT and the upcoming Matter are supported. Maximum load of 12kg The powerful motor allows the Curtain Driver E1 to push and pull a maximum of 12kg, which will likely support curtains made of all materials. Features- Wireless technology: Zigbee 3.0, Matter- Battery capacity: 6500mAh- Connections: USB C 5V- Step speed: 12cm/s- Motor rotation: 100rpm- Operating temperature: 0°C - 45°C- Humidity: 0 ~ 95% RH, non-condensing Further data- Z-Wave Plus: yes - WEEE: yes - CE: yes- IP class: IP20 Introducing Z-Wave Plus™ Z-Wave Plus™ is a new level within Z-Wave certification and is designed to help consumers identify those products that utilise the "GEN5" Z-Wave hardware platform (also known as 500 series or 5th generation Z-Wave chips). Generation Z-Wave chips). Z-Wave Plus certified products have several advantages that increase ease of use and make Z-Wave solutions even faster and easier to install and set up. Since the first Z-Wave product was certified in 2004, Z-Wave has become the market leader for interoperable smart devices in home networking. With the introduction of the new Z-Wave 500 series, the Z-Wave ecosystem has been expanded with new features such as increased range, longer battery life, Over The Air upgrades (OTA), and additional RF channels. Products with Z-Wave Plus™ are fully backwards compatible with existing Z-Wave products! For consumers, homeowners, integrators and service providers, the Z-Wave Plus™ enhancements offer tremendous benefits in terms of shorter and easier installations, more extensive device profiles, improved self-healing and longer battery life. With the new Z-Wave Plus certification programme, the Z-Wave Alliance is also introducing a series of logos that can be found on the packaging of Z-Wave Plus™ certified products, informing consumers of the benefits of the Z-Wave 500 series. Benefits- 50% improvement in battery life- 67% improvement in range- 250% more bandwidth- Three RF channels for improved noise immunity and higher bandwidth- New network-wide plug-and-play inclusion feature- Improved self-healing and fault tolerance with explorer frame feature- Standardised procedure for over-the-air firmware updates (OTA)- Improved product information collection for the product certification database
