### Product Description

Special cable management plate. The cable management plate is designed for installation on the vertical grid rails of the distribution board. It can also be mounted on the vertical perforation at the rear of the wall distributors. Cable brackets, which are not included in the scope of delivery, can also be used for better cable management. The plate is simply hooked into the vertical grid rail. A locking mechanism prevents it from loosening. - Width: 170 mm - Height: 150 mm
