MCVEEZLOATOMV2 - ezlo Atom V2

from **51,49 EUR**

Item no.: 388126
shipping weight: 0.10 kg
Manufacturer: ezlo

Product Description

The small ezlo Atom V2 is the perfect solution for getting started with your smart home. Make your everyday life more convenient with Z-Wave devices by controlling lights, sensors, door locks and thermostats with just one app. The ezlo Atom V2 offers you convenience and security at an amazing price. From switching on your lights before you get home to securing windows and doors. In conjunction with a water sensor, leaks can also be detected early to prevent high consequential damage. The ezlo Atom V2 controller notifies you directly on your smartphone if irregularities are detected in your home. So you always know what is going on within your four walls, even if you are on the other side of the world. Be notified if a door opens at unusual times, if movement is detected when no one is at home or if water is leaking. But that's not all, because the small controller not only ensures your security, but also makes your life easier. Set the outdoor lighting so that your house is illuminated in the dark to deter burglars. Have the blinds lowered automatically in the afternoon to keep your rooms cool. Or switch the thermostat so that when you come home you will find your ideal comfort temperature. Installation is very simple: connect the controller directly to a USB adapter and plug it into a socket. Then download the VERA Control app and follow the step-by-step instructions. Highlights - Compatible with Z-Wave and Wi-Fi - Plug-and-play: Control Hub can be easily connected to any USB adapter - Enables control of familiar Z-Wave devices such as lights, thermostats, door locks, sensors, switches and much more - Via intuitive VERA Mobile app for iOS and Android, you can easily control your home remotely - With VERA Easy Start, you receive personalised assistance during setup or live support from the VERA Customer Care Team - Compatible with Amazon Alexa, Google Assistant and Apple Shortcuts - Features Z-Wave's state-of-the-art S2 security platform to ensure the protection of your personal data - Z-Wave Plus - yes - Z-Wave S2 - yes - WEEE - yes - CE - yes - IP class - IP20 - Z-Wave Plus - Z-Wave Plus™ is a new level within Z-Wave certification and has been developed to help consumers identify those products that utilise the "GEN5" Z-Wave hardware platform (also known as 500 series or 5th generation Z-Wave chips). Generation Z-Wave chips). Z-Wave Plus certified products have several benefits that increase ease of use and make Z-Wave solutions even faster and easier to install and set up. Since the first Z-Wave product was certified in 2004, Z-Wave has become the market leader for interoperable smart devices in home networking. With the introduction of the new Z-Wave 500 series, the Z-Wave ecosystem has been expanded with new features - such as increased range, longer battery life, Over The Air upgrades (OTA), and additional RF channels. Products with Z-Wave Plus™ are fully backwards compatible with existing Z-Wave products! For consumers, homeowners, integrators and service providers, the Z-Wave Plus™ enhancements offer tremendous benefits in terms of shorter and easier installations, more extensive device profiles, improved self-healing and longer battery life. With the new Z-Wave Plus certification programme, the Z-Wave Alliance is also introducing a series of logos that can be found on the packaging of Z-Wave Plus™ certified products, informing consumers of the benefits of the Z-Wave 500 series. Benefits - 50% improvement in battery life - 67% improvement in range - 250% increase in bandwidth - Three RF channels for improved noise immunity and higher bandwidth - New network-wide plug-and-play inclusion feature - Improved self-healing and fault tolerance - Improved self-healing and fault tolerance with explorer frame function - Standardised procedure for over-the-air firmware updates (OTA) - Improved product information collection for the product certification database - Z-Wave S2 The foundation of S2 is all everything needed for a smart home: The latest version of Z-Wave, reduction in power consumption compared to older Z-Wave devices and wireless communication. S2 takes all this and expands the Z-Wave world with: - Advanced encryption (AES 128-bit) - More security against hacker attacks - Improved battery life - Faster communication between devices
