dCSS

Product Description

This option enables the use of dCSS technology (Digital Channel Stacking Switch), which is based on the EN50607 standard. It enables the selection, measurement and analysis of a specific channel plan with different dCSS types from different countries. This option is available free of charge if the user completes the registration process for the H30 measuring device within 30 days of purchase. Highlights - Enables measurements to be carried out with the measuring device in dCSS systems - Suitable for the H30FLEX, H30Evolution and H30Crystal measuring devices
