from **271,70 EUR**

Item no.: 396118
shipping weight: 3.00 kg
Manufacturer: Triton

Product Description

RAB-CH-Xxx-X3, RAC-CH-Xxx-X3 These fan plates have been specially developed for floor-standing distributors. They are mounted in the floor, roof or door of the distribution boxes as required (cut-out 350 x 420 mm). The fan plate for free-standing distributors is inserted in the roof from the outside and in the floor from the inside. For floor mounting, a mounting frame, RAX-CH-XXX-X1, is also required, which is attached with double-sided adhesive tape. We also recommend a base for air intake. Temperature setting: Bimetal thermostat instead of Nominal voltage (V/Hz): 230/50-60
