### Product Description

Safe, smart, easy to use with coverage of every corner. Wi-Fi camera for home security with horizontal/vertical rotation. Motion detection with instant notification House robbery is exactly the event we want to prevent. Install the camera toward the entrance to the house, garage, or basement to ensure the safety of your family and property. You will receive a notification as soon as the camera detects movement in your home. You can be informed about the delivery of the package or also about a suspicious intrusion. Enable light and sound effects to deter unwelcome visitors. Live view and two-way audio Even if you go on a trip, you can still see if your grown-up children are not doing any problems or if the babysitter takes good care of them. With the two-way audio feature, you can tell you're missing them (or stop looting the fridge).
