📄 Product Description

Control your home lighting from anywhere with Tapo for iOS or Android. Tapo L510E is a dimmable bulb with a light temperature of 2700K to the E27 socket with a consumption of 8.7W and a luminous flux of 806 lumens. WiFi controlSimply connect your smart bulb to your home Wi-Fi network and control with Tapo wherever you go. You do not need any additional hubs. The bulb also supports Amazon Alexa voice control and Google Assistant. It can be dimmed and turned on manually or based on adjustable schedules. Schedule and TimerAre you afraid of uninvited guests in your household during your absence, such as when you're on vacation or at work, on a trip, etc.? Set your automatic on and off according to the schedule! You can also make awakening more pleasant, for example, by setting it to turn on automatically with lower light intensity.Technical parametersWireless features- Wireless frequency: 2.4 GHz - WiFi standards: 802.11n, 802.11b/g Light- Luminous flux [lm]: 800 - Dimmability: Yes - Beam angle [°]: 220 - Color temperature: 2700K - warm white Power- Max. power consumption [W]: 8,7 Physical characteristics- Socket: E27 - Operating temperature [°C]: 0 up to 40 - Weight [g]: 68 - Width [mm]: 60 - Height [mm]: 115 - Depth [mm]: 60 Software- Remote controll: Yes
