Product Description

Maclean Maclean MCTV-933 Wall spacer for mast up to Ø 71mm Antenna mast bracket Bracket for satellite dish (wall distance: 20cm) SKU: 83901 | EAN: 5902211131298 The antenna mast bracket is a high-quality solution for securely mounting an antenna mast on the wall. Made of hot-dip galvanised steel with an impressive material thickness of 5 mm, this bracket offers maximum stability and strength. The 5 mm material thickness ensures secure fixing and resistance to the elements. With a maximum tube diameter of 7.1 cm, this bracket is suitable for a wide range of antenna masts. With a distance of 20 cm between the wall and the tube, this bracket offers sufficient space for mounting and ensures secure attachment. It has been specifically designed for the secure wall mounting of antenna masts and provides a reliable solution for their installation. - Brand: Maclean - Model: MCTV-933 - Material: Steel - Distance between wall and pipe: 20.5 cm - Maximum pipe diameter: 7.1 cm - Thickness: 5 mm - Maclean antenna mast bracket, 20cm, MCTV-933 - The bracket has been specially designed to securely mount an antenna mast to the wall - The distance between the wall and the pipe is 20.5 cm, which provides sufficient space for mounting - The maximum pipe diameter is 7.1 cm and allows the mounting of various antenna brackets - The material thickness is 5 mm, which provides additional stability and strength - Material: Galvanised steel - corrosion-resistant and durable
