Product Description

MikroTik Cloud Router Switch CRS112-8G-4S-IN

Cloud Router Switch 112-8G-4S-IN is a small-size low-cost member of the CRS series. It comes with eight Gigabit Ethernet ports and four SFP cages.

MikroTik's CRS series combines the best features of a fully functional router and a Layer 3 switch and is powered by the familiar RouterOS.

All the specific Switch configuration options are available in a special Switch menu, but if you want, ports can be removed from the switch configuration and used for routing purposes.
