Product Description

Qubino Smart Plug 16A

Control your electrical devices remotely and make your Smart Home even more smart. With the Smart Plug 16A of Qubino you do not worry if you had turn off the coffee machine before you walked to work. With its high current of 16A you can control the oven, washing machine, iron and the tumble dryer with the Qubino Smart Plug.

Due to its small design you do not cover any close sockets and you can use the space of one socket optimally. Any connected electrical device you switch ON or OFF with the plug or the device switches ON or OFF after a set time period automatically. Furthermore it has got an energy measurement as well as a repeater function. With this function you can test if the energy saving fridge keeps its promises.
