Product Description

HEIMAN Smoke Sensor

Hopefully, you will never need it, but in case of emergency it will save not only your belongings, but also life. A pot which stands on the stove too long or a forgotten ironfirst there will arise smoke, then it will cause a fire. The HEIMAN Smart Smoke Sensor owns an accurate capture of smoke and you will alert acoustically and visually. In a serious situation the smoke sensor alerts with a red LED which flashes rapidly and with a noisy alarm. Furthermore there is the opportunity to receive a warning on your smartphone if you are not at home. This prevents a fire emerging from smoke and expensive consequential damages. Because of the use of the wireless technology Z-Wave the sensor can be connected to any Z-Wave gateway. Thanks to the latest Z-Wave Plus standard the Smoke Sensor ensures a batterie lifetime of 3 years.

Features:

- Detects smoke and visible particles which arise by a smoldering fire
- Soundlevel of alarm: 85 dB/3m
- Low battery indication
- Power supply: 1x CR123A lithium battery
- Battery lifetime: 3 years
- S2 security standard
- Wireless technology: Z-Wave Plus
- Smoke Sensor applies DIN EN14604
