Product Description

The aesthetic design of the WiBOX series predestines the Extra Large SLIM model for indoor and outdoor installation. The WiBOX Extra Large SLIM has protection class IP67, which is achieved by a special sealing system that makes it resistant to all weather conditions. It is ideal for standard or customised installations. WiBOX Extra Large SLIM also has 5 additional holes to install up to 5 more antennas on the connection panel. The housing has a suitable installation compartment for PCB (electronic circuit board), the dimensions of the compartment are 180 x 174 x 35 mm. The WiBOX Extra Large SLIM is supplied with the WiMount fibreglass mounting system. The system can be ordered with any antenna board from the Wireless Instruments range that fits this type of box. WiBOX Extra Large SLIM can also be fitted with external connections.
