from **21,73 EUR**

Item no.: 395382  
shipping weight: 0.20 kg  
Manufacturer: ITELITE

### Product Description

The MRA antenna housing is the smallest housing made of polystyrene by injection moulding. The housing dimensions are 185x185 mm; the usable height in the centre of the housing is around 40 mm. The material is protected against UV rays. Enclosures of this type are matched to Mikrotik routers as standard. The MRA enclosure has an opening of 23.2 mm, which is suitable for a watertight cable gland and/or a watertight RJ45 Ethernet connection. Together with the enclosure, the customer can choose an optional set of accompanying components, such as: Pole mounting, wall mounting, mounting with tilt option, mounting without tilting downwards, individual colour of the enclosure, pigtails, earthing cable. The whole set is made of the highest quality materials and is designed for use even in the most demanding weather conditions.
