from **22,99 EUR**

Item no.: 395449
shipping weight: 0.20 kg
Manufacturer: ITELITE

📄 Product Description

The PRA enclosure is a medium-sized polystyrene enclosure manufactured by injection moulding. Its dimensions are 270x270 mm; the usable height in the centre of the housing is about 50 mm. The material is protected against UV rays. Enclosures of this type are suitable for Mikrotik routers as standard.The PRA enclosure has an opening of 23.2/25 mm, which is suitable for a watertight cable gland and/or a watertight RJ45 Ethernet connection. It is also possible to provide this enclosure with two holes for the RJ-45 glands and with plugs/prongs mounted on the bottom of the enclosure. Along with the enclosure, the customer can optionally choose a range of accompanying components, such as: Pole mounting, wall mounting, mounting with tilt option, mounting without downward tilt, custom colour for the enclosure, pigtails, earthing cables, external omnidirectional antennas, external connectors, LED lights, etc. The entire set is made from the highest quality materials and is designed for use in the most demanding weather conditions.
