📄 Product Description

TESLA Smart Home Smart Buttonwillchange your life. Something that can solve almost all your problems. One button, one click and no more worries.Long service lifeThanks to the fact that it is a battery-powered device, you can choose its location freely. And because the device is very energy efficient, it lasts up to two years without the need to replace the battery.Perfect rangeThe ZigBee protocol used by the smart TESLA devices enables a range of up to 50 metres. In addition, the entire system is very stable, so there is no risk of it ever letting you down.Voice-controlled commandsThe device can also be operated by voice. All you need is the app on your smartphone and one of the personal assistants - Google Assistant or Amazon Alexa. You then pass on your wishes to the individual devices.Zigbee protocolThe product belongs to a group that uses the ZigBee protocol, via which the products communicate with each other. For these products to function properly, the TESLA Smart ZigBee Hub control centre is required as part of the smart home. This creates a common network for these products and allows them to interact with each other. For example, if the humidity sensor detects an increased value, it automatically notifies the dehumidifier via the Tesla Smart ZigBee Hub, which starts up.It will do everything for youThe TESLA Smart Sensor Button smart home button is a handy helper for all your worries and household tasks that can do everything for you. Set it up according to your needs and preferences.Set it up as you wishThe device only requires one battery, which lasts up to a year thanks to the energy-saving function.Operation is child's playThe TESLA Smart Sensor Button can easily operate its intelligent colleagues in the smart home. This is thanks to the ZigBee protocol. This technology connects smart devices with each other and enables communication between them. Everything can also be controlled via the intelligent personal assistants, Amazon Alexa and Google Assistant.Features:- Smart Button Zigbee- ID: TSL-SEN-BUTTON- Battery status monitoring: Yes- Power supply: 1x button cell CR2032- Operating temperature: -10-55 °C- Dimensions: Ø50 x 16 mm- Connectivity: Zigbee- App TESLA Smart: Google Android 6.0+, Apple iOS 11.0+
