Product Description

The corded Gigaset DESK 800A with integrated answering machine and hands-free function is ideal for use at home or in the office. Answering machine With a recording time of up to 50 minutes, the integrated answering machine ensures that no calls are missed even if you are away for a long time. In addition, the answering machine can also be accessed remotely while travelling. All recordings are protected in the event of a power failure. So you are always well informed - even if you cannot be reached directly. Large LC display with backlight The Gigaset DESK 800A has a three-line LC display with LED backlight that shows the caller's number, name, call time and VIP status (if assigned). The start screen also shows the date, time and day of the week. Hands-free function & headset connection The Gigaset DESK 800A has a hands-free function with a 7-stage adjustable volume to keep your hands free during longer calls. In addition, a headset connection (RJ9) is integrated, which enables the connection of professional headsets. Seven double-assignable direct dialling keys With the help of the seven double-assignable direct dialling keys, important contacts are just a keystroke away. This enables a quick connection to the people you speak to frequently. The direct dialling numbers can be noted on the enclosed paper insert so that they are always to hand.
