00009100 - snom D717 black Customised

from **118,72 EUR**

Item no.: 401308
shipping weight: 1.10 kg
Manufacturer: Snom Technology GmbH

📄 Product Description

Please contact our sales representative regarding your customised requirements.The Snom D717 is the cost-effective entry into the professional world of VoIP telephony. The modern design of the phone features a high-resolution colour display and the highly configurable Snom SmartLabel. The SmartLabels enable the D717 to provide functions such as speed dialling and busy lamp field clearly, without having to label paper inserts and despite its compact form factor.A built-in brightness sensor ensures that the brightness of the telephone display is always adapted to the current lighting conditions in the room. This is both economical and convenient.Highlights- High-resolution 2.7 inch TFT display (6.9 cm)- Integrated ambient light sensor- Automatically dimmed backlight- 3 self-labelling function keys- Speakerphone with wideband audio- 2-port Gigabit Ethernet switch (RJ45)- Power over Ethernet IEEE 802.3af- D7 expansion module-capable- Connection option for USB headset or WLAN stick- Connection option for cordless headsets via Electronic Hook Switch (EHS)Scope of deliverySnom D717 black Customised, stand, handset with handset cable, Ethernet cable, quick start guideNote text Scope of deliveryPower is supplied via PoE or power supply unit.
