Product Description

Model number: WDBPMV0040BSL-WESN My Passport Ultra for Mac - 4 TB-Interface USB 3.2 Gen 1-Transfer speed up to 5Gb/s Withstands any adventure The metal housing of the My Passport Ultra for Mac mobile hard drive not only looks good, but is also particularly robust. This makes this hard drive the ideal companion for travelling. This high-capacity USB-C™ enabled storage device for Mac provides easy access to your important files wherever you are. Use the included Acronis® True Image™ for Western Digital®2 software to securely back up your data with ransomware protection. Password protection provides additional security when travelling. Designed for Macs. Optimised for Windows. The My Passport Ultra for Mac mobile hard drive is ready to use right out of the box and can be connected universally thanks to USB-C™ compatibility. An HFS+ driver is provided for download to ensure that the hard drive works with Windows® 10+ computers without reformatting. Compatible with USB-C™ The My Passport Ultra for Mac mobile hard drive can be easily connected to USB-C™-enabled devices. The included USB-C™ to USB-A adapter provides additional compatibility with older devices and offers versatility and convenience in a compact format. Large capacity With up to 6 TB1 of storage capacity, you can take your photos, videos, music and important documents with you wherever you go, keeping everything safe and secure. Easy backups. Ransomware protection included. The included Acronis® True Image™ for Western Digital2 software makes it easy to schedule backups of your valuable files. Also back up your important applications and protect your computer system from data loss due to ransomware attacks. Protection for important data Protect your files from unauthorised access at home or on the go. Use the included software2 for additional security thanks to password protection with integrated 256-bit AES encryption. Designed with the environment in mind The casing of this hard drive is made from more than 50% recycled plastic. The packaging consists of over 50% recycled cellulose and is fully recyclable.
