

Item no.: 375466

WD8001FZBX - WD Desktop 8 TB HDD, 3.5 Zoll, SATA

from **353,66 EUR**

Item no.: 375466
 shipping weight: 0.10 kg
 Manufacturer: Western Digital

Product Description

Optimum performance and capacity for gaming Thanks to capacities of up to 10 TB1, you can easily store the latest AAA titles on the WD_BLACK gaming hard drive without having to delete cherished classics or favourite games. Don't compromise on your games. Get the best performance and capacity from WD_BLACK. Performance and capacity for gaming WD_BLACK is designed to optimise your PC gaming experience. The higher capacity models of WD_BLACK hard drives feature an impressive 256MB DRAM cache for smooth gameplay and fast load times. Combine a WD_BLACK HDD with a WD_BLACK SSD to get the best of both worlds: The SSD delivers maximum gaming performance, while the HDD offers enough space for your favourite games. With speed, high capacity for a first-class gaming experience. Limitless gaming The WD_BLACK HDD is the perfect storage solution for your gaming computer with a large cache and enough space for your favourite titles and all DLCs (Downloadable Content). Combine the HDD with an SSD and you get a system with outstanding performance and capacity. Store more, play more Thanks to capacities of up to 10 TB1, you can easily store the latest AAA titles on the WD_BLACK gaming hard drive without having to delete cherished classics or favourite games. Don't compromise on your games. Take advantage of the optimum performance and capacity of WD_BLACK. Increased reliability WD_BLACK gaming hard drives from 2 TB1 are equipped with StableTrac™ technology. This secures the motor shaft in the hard drive to increase reliability and reduce additional system-related vibrations from other components such as additional gaming hardware. By stabilising the platters internally, the WD_BLACK hard drive can ensure more precise actuation during read and write operations in a given sector, optimising performance and reliability. Performance on demand The WD_BLACK hard drive offers ultra-fast read and transfer speeds with impressive cache sizes of up to 256 MB DRAM on high capacity models. Western Digital's Dynamic Cache technology improves cache algorithms in real time and optimises cache allocation between read and write operations. This ensures short loading times and fast gameplay. Battle-tested dual processor When loading today's games with large memory requirements, computing power is key. The WD_BLACK gaming hard drive is equipped with a dual-core processor, which offers twice the processing power of a single-core processor and thus shortens loading times. Technical data- Capacity 8 TB- Form factor 3.5-inch- Connection SATA- Interface ATA- Transfer speed up to 267MB/s- Disk Speed (RPM) 7200 RPM- Recording Technology CMR- Cache Size 256MB- Dimensions (L x W x H) 147mm x 101.6mm x 26.1mm- Model Number WD8002FZBX- Operating Temperature 5°C to 55°C- Non-Operating Temperature -40°C to 70°C- Hard Drive 3.5"- Certifications BSMI, ICES-003/NMB-003, CE, FCC, KC, Maghreb, RCM, UKCA, VCCI, -CB-Scheme, TUV, UL Product Features- High performance gaming desktop hard drive- High performance storage with up to 10TB capacity- Designed for gamers, system builders and creative professionals.- StableTrac™ and Western Digital's Dynamic Cache technology improve reliability and optimise performance Compatibility- PC- Mac (requires reformatting)- Compatibility depends on hardware configuration and operating system. Included- Gaming hard drive- Acronis True Image WD Edition software- Quick Start Guide
