TUBE-2HQP /EU - 11n 2.4GHz Long Range standard PoE CPE (16M/128M)

from **91,18 EUR**

Item no.: 375125
shipping weight: 0.30 kg
Manufacturer: ALFA Network

Product Description

Tube-2HQP is a powerful 802.11n 2.4 GHz AP/CPE board equipped with Fast Ethernet. Powerful outdoor AP/CPE board with Fast Ethernet and PoE support. Standard IEEE 802.3at/af PoE. Tube-2HQP offers an integrated 802.11b/g/n WiFi radio (2.4 GHz, up to 27 dBm transmission power and 150 Mbps throughput) with Type-N antenna connector and Fast Ethernet with support for the standard IEEE 802.3at/af PoE input. Official OpenWrt support, web-based recovery and serial console access to the system make development extremely easy. General specifications- SOC: Qualcomm™ QCA9531 with 650 MHz single-core MIPS 24Kc CPU- RAM: 128 MB DDR2- Flash: 16 MB SPI NOR Flash- WiFi: 802.11b/g/n 1T1R 2.4 GHz 1x Type-N (male) antenna connection- Ethernet: 1x Fast Ethernet with ESD protection- Pin headers: 1x 4-pin serial system bracket (2.00 mm pitch)- Pushbuttons: 1x push button (reset)- LED 1x power/PoE input (blue) 1x LAN (blue) 4x signal level (red, orange, green, green)- Miscellaneous: External hardware watchdog- Software: U-Boot with web-based support for firmware recovery Officially supported in OpenWrt (Linux Kernel 5.10+)- Power supply: 802.3at/af standard module- Dimensions: 176 x 38- Weight: 125 g- Operating humidity: 5 % ~ 90 % (non-condensing)- Operating temperature: -30 °C ~ 70 °C
